JEE Foundation Readiness Report

1. Your Baseline Reality

Welcome to Class 11. The jump from 10th-grade boards to JEE preparation is the steepest academic hurdle you will face. You achieved a baseline score of 64/75. The class average was 46/75. You are performing 24% above the class baseline. This is a solid start and gives us a great platform.

Score Breakdown

Subject	Score	Percentage	Visual Progress
Mathematics	22/25	88%	
Physics	20/25	80%	
Chemistry	22/25	88%	

2. Educator Action Plan (The Bridge Strategy)

Step 1: Confront Your Friction Point

Your lowest performing area right now is **Physics**. Avoid the temptation to only study the subjects you are already good at. For the next two weeks, devote an extra 45 minutes daily exclusively to this subject.

Step 2: Repair the Biggest Leak

You lost massive points on **Structure of the Atom**. Before attempting any high-level modules this week, you must review your previous notes on this specific topic.

Step 3: Evolve Your Thinking Process

Your primary hurdle is with questions requiring **"Analyze" skills**. You get rewarded for critical thinking, not just memorizing. Focus on understanding the **'Why', not just the 'What'**.

3. Prerequisite Error Logs

Below are the exact fundamental gaps identified, separated by subject. Difficulty Levels are color-coded (Green = Basic, Yellow = Moderate, Red = Advanced/Complex). Cognitive skills are highlighted to show if you are missing facts (Blue) or failing to apply concepts (Red).

Mathematics Gap Analysis

Q#	Target Concept	Complexity	Cognitive Skill Tested
9	Percentage	Level 4	Analyze
15	Geometry + Algebra	Level 5	Analyze
24	Compound Interest	Level 3	Apply

Physics Gap Analysis

Q#	Target Concept	Complexity	Cognitive Skill Tested
29	Mathematical Proportionality	Level 2	Apply
35	Velocity-Time Graphs	Level 2	Apply
40	Circular Motion	Level 3	Understand
47	Logical Deduction	Level 4	Analyze
49	Locus & Geometry	Level 5	Analyze

Chemistry Gap Analysis

Q#	Target Concept	Complexity	Cognitive Skill Tested
----	----------------	------------	------------------------

56	Chemical Reactions and Equations	Level 2	Understand
71	Periodic Classification of Elements	Level 5	Analyze
75	Structure of the Atom	Level 4	Apply

ASSESSMENT REPORT

Performance Breakdown

Subject	Score	Max	Percentile	Class Avg	Class High
 Physics	73	100	64.1%	63.4%	100.0%
 Chemistry	52	100	27.9%	67.7%	100.0%
 Mathematics	63	100	68.7%	48.6%	100.0%

Diagnostic Error Mapping

PHYSICS

Topic Area	Status	Class Context & Bloom's Taxonomy
------------	--------	----------------------------------

Derivative of $\ln(\sin x)$	Incorrect	Q9 (Apply) — Class: 38% Right 46% Wrong 16% Left
Quotient Rule	Incorrect	Q10 (Apply) — Class: 45% Right 42% Wrong 13% Left
Rate of Change (Volume)	Unattempted	Q16 (Apply) — Class: 22% Right 33% Wrong 45% Left
Chain Rule at $x=1$	Incorrect	Q23 (Apply) — Class: 43% Right 37% Wrong 20% Left
Unit Conversion Analysis	Unattempted	Q24 (Analyze) — Class: 46% Right 19% Wrong 35% Left Q25 (Analyze) — Class: 50% Right 12% Wrong 38% Left

CHEMISTRY

Topic Area	Status	Class Context & Bloom's Taxonomy
Mole Ratio of Gas Mixtures	Unattempted	Q29 (Apply) — Class: 68% Right 19% Wrong 13% Left
Atoms in Sugar	Unattempted	Q30 (Apply) — Class: 63% Right 15% Wrong 22% Left
Stoichiometry of Ammonia	Unattempted	Q35 (Apply) — Class: 49% Right 30% Wrong 21% Left
Formula from Weight Ratio	Unattempted	Q37 (Apply) — Class: 63% Right 11% Wrong 26% Left
Formula from Atomic Weights	Incorrect	Q38 (Apply) — Class: 84% Right 10% Wrong 7% Left
Average Molecular Mass of Air	Incorrect	Q42 (Apply) — Class: 64% Right 11% Wrong 26% Left
Moles of Oxygen Atoms	Unattempted	Q44 (Apply) — Class: 41% Right 11% Wrong 48% Left
Stoichiometry (S_8 to SO_3)	Unattempted	Q45 (Apply) — Class: 62% Right 12% Wrong 26% Left
Average Mass of Mixture	Incorrect	Q47 (Apply) — Class: 46% Right 27% Wrong 28% Left

Vapour Density w.r.t CH ₄	Incorrect	Q48 (Apply) — Class: 67% Right 13% Wrong 20% Left
Molecule Removal/Remaining Moles	Unattempted	Q49 (Analyze) — Class: 62% Right 15% Wrong 23% Left

MATHEMATICS

Topic Area	Status	Class Context & Bloom's Taxonomy
Rational Inequalities	Incorrect	Q53 (Apply) — Class: 52% Right 40% Wrong 8% Left
Rational Inequalities	Unattempted	Q59 (Apply) — Class: 28% Right 26% Wrong 46% Left
Quadratic Modulus Inequalities	Unattempted	Q57 (Apply) — Class: 48% Right 13% Wrong 39% Left
Variable Transformation	Unattempted	Q58 (Apply) — Class: 48% Right 32% Wrong 20% Left
Multi-Modulus Intervals	Unattempted	Q61 (Apply) — Class: 64% Right 17% Wrong 19% Left
Positive Integral Solutions	Unattempted	Q62 (Apply) — Class: 46% Right 20% Wrong 35% Left
Rational Modulus Inequalities	Unattempted	Q64 (Apply) — Class: 38% Right 39% Wrong 23% Left
Complex Rational Inequalities	Unattempted	Q65 (Apply) — Class: 34% Right 41% Wrong 24% Left
Properties of Modulus Sums	Unattempted	Q75 (Analyze) — Class: 39% Right 20% Wrong 41% Left

Priority Action Plan

 *Insight: This action plan dynamically prioritizes the exact topics where you missed questions that the majority of the class answered correctly. Mastering these specific areas is your fastest path to rank improvement.*

■ Priority 1: Chemistry (Percentile: 27.9%)

- a. **Topic: Formula from Atomic Weights (1 Wrong, 0 Unattempted)**
 - i. Impact: You missed questions here that up to 84% of peers got right.
- b. **Topic: Vapour Density w.r.t CH₄ (1 Wrong, 0 Unattempted)**
 - i. Impact: You missed questions here that up to 67% of peers got right.
- c. **Topic: Average Molecular Mass of Air (1 Wrong, 0 Unattempted)**
 - i. Impact: You missed questions here that up to 64% of peers got right.
- **Priority 2:  Mathematics (Percentile: 68.7%)**
 - a. **Topic: Rational Inequalities (1 Wrong, 1 Unattempted)**
 - i. Impact: You missed questions here that up to 52% of peers got right.
 - b. **Topic: Multi-Modulus Intervals (0 Wrong, 1 Unattempted)**
 - i. Impact: You missed questions here that up to 64% of peers got right.
 - c. **Topic: Variable Transformation (0 Wrong, 1 Unattempted)**
 - i. Impact: You missed questions here that up to 48% of peers got right.
- **Priority 3:  Physics (Percentile: 64.1%)**
 - a. **Topic: Unit Conversion Analysis (0 Wrong, 2 Unattempted)**
 - i. Impact: You missed questions here that up to 50% of peers got right.
 - b. **Topic: Quotient Rule (1 Wrong, 0 Unattempted)**
 - i. Impact: You missed questions here that up to 45% of peers got right.
 - c. **Topic: Chain Rule at $x=1$ (1 Wrong, 0 Unattempted)**
 - i. Impact: You missed questions here that up to 43% of peers got right.
